Arabic Alphabet Flower Match Game (File Folder Game)

1. Open the document. Print all pages. I preferred to print the pages on cardstock and then laminated them prior to cutting out the pieces. For those of you who do not have a color printer – remember that Kinko's (in the US) has facilities where you can use their computer and print off documents in color for a fee. You need to print out this document twice to have two sets of each Arabic letter.

2. Set aside one set of Arabic letter sheets (alif to yaa)

3. Cut out all the pieces of one set of Arabic letter sheets

4. Glue the game title and directions onto the front of the file folder.

5. Glue the game label onto the tab of the file folder.

6. Mount the Arabic letter sheets that you set aside onto the open file folder. Remember to mount them in order from right to left!

7. If you prefer, you can add a small piece of Velcro to each of the flowered letters on the file folder. You can then add the other side of the Velcro to the back of the loose 28 lettered flowers. Otherwise, the child can just lay the letters on top of one another.
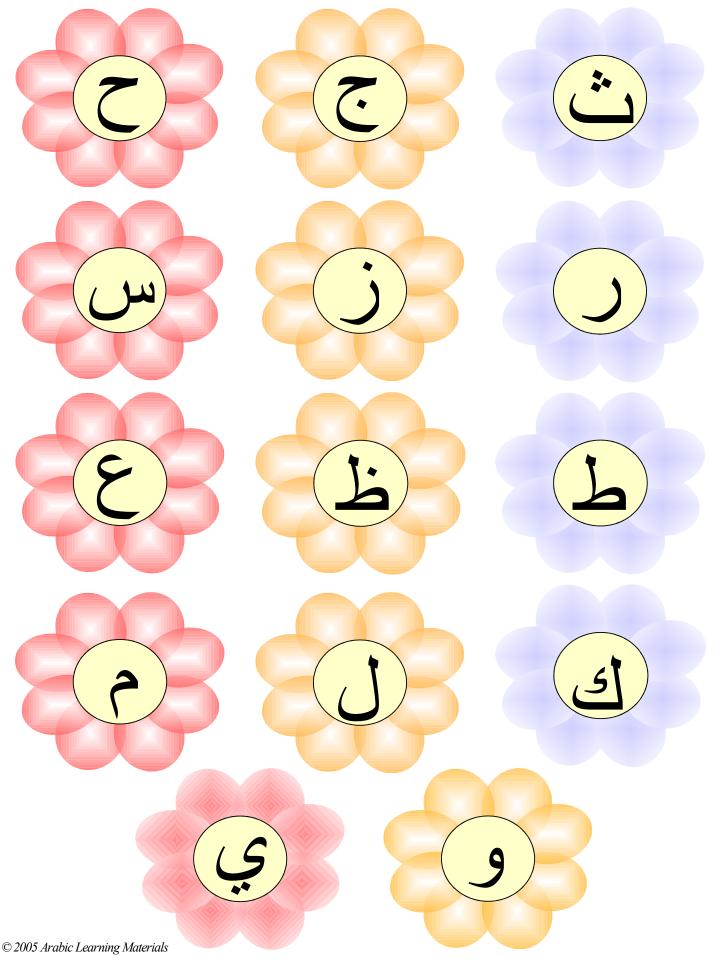

8. Store loose pieces in an envelope.
