

Arabic Letter Magnets

What You'll Need:

Everything you need is at your local craft store (I actually purchased some from the local dollar store)

- ¾ inch round magnets - you can get 50 for about \$5.00-\$7.00
- glass accent marbles with one side flat look in the floral section
- Glue that dries on clear (even Elmer's glue will work – I used “tacky glue”
- Print off the sheets of Arabic letters
- Scissors

Step One:

Print off the Arabic letter template sheets. I printed mine off on regular paper, but you could use cardstock.

Step Two:

Cut each letter with your scissors to fit the magnet. I first cut out around each letter and then I took each one and cut it to fit the marbles.

Step Three:

Next, take your glue, using a drop the size of a pencil eraser or a little less; glue your image to the marble. Be careful not to use too much or the letter will slide all over the place!

Step Four:

After the glue dries, put a drop of glue, the same size as before, in the middle of the back of the letter. Then press down the magnet onto the back of the letter.

Step Five:

Let it dry for about an hour before you put it on the fridge. You don't want it sliding off and ruining everything!

Here's what the magnets will look like.
(right now I do not have the magnets glued on).

There is a glare from the camera – but you can see clearly at these magnets – there is no cloudiness for the pictures when you look at them normally.
