

# Arabic Car Colors

## ~ File Folder Game ~

**Game Name:** Color Match

**Skill Learned:** Classification by Color

1. Print all pages. Mount the two pages with the names of the colors over the cars onto file folders.
2. Print out the colored car page (I prefer cardstock). Laminate and cut out the cars . If you want to save on ink, I also included a page that you can print and color yourself – just make sure to color the cars the appropriate colors.
3. Cut out the game labels and mount them on the front of the file folder.
4. Cut out the “how to play” and mount it on the outside of each folder.
5. Store the pieces in a plastic baggie.
